*Specific Activity and Stock Solution Volume information is only required if you choose to track removals from the stock solution vial in milliliters (ml) rather than milliCuries (mCi).

Please affix the "Identification Number" label to the vial or pig. At quarterly intervals please photocopy this Inventory Record and send it to the Environmental Health and Safety Office until the radioactive material has decayed through ten half-lives, has been removed from the lab as waste, or has been transferred to another Authorized User. Please be certain to indicate the correct quarter and year in the upper left hand corner of the form. Waste may be de-labeled and disposed of as non-radioactive following ten half-lives of decay.
